**A Decade of Success ... 2007 – 2017**

*U.S. Display Group reaches the ten-year mark for no lost time accidents*

**Tullahoma, TN:** U.S. Display Group has reached a manufacturing milestone. November 25, 2017 marked ten years with no lost time accidents.

When asked about the significance of this achievement, Greg Moore, President of U.S. Display Group, said, “Safety has always been, and will continue to be our top priority at U.S. Display Group. We have a dedicated team of great employees who understand this and have helped shape this culture over the years. I want to thank each and every one of our team members for this amazing accomplishment. It is something that every one of us at U.S. Display Group take great pride in.”

- *What is a lost time accident?* A lost time accident is an OSHA recordable incident in which an employee is not able to return to work or is assigned restricted work on the day or shift following the incident.
- According to the Bureau of Labor Statistics, for 2016 alone, “there were approximately 2.9 million nonfatal workplace injuries and illnesses reported by private industry employers, which occurred at a rate of 2.9 cases per 100 full-time equivalent workers”
- Major pieces of equipment such as die-cutting machines and direct printing presses constantly present opportunity for injury, but U.S. Display Group goes to great lengths to make sure all employees work in the safest environment possible
- U.S. Display Group attributes their safety success to team work – the safety initiative starts at the top with their ownership and affects every part of their operation

**About U.S. Display Group:** U.S. Display Group, a WBENC certified company, is a leading independent designer and manufacturer of custom point-of-purchase displays and retail packaging. USDG is an award winning company with over three decades of experience offering a complete range of capabilities including in-house design, manufacturing, and pack out services.
